PRESS RELEASE
For immediate release

COGECO announces solid financial results for the third quarter of fiscal 2013

- ***39.2% growth of its operating income before depreciation and amortization*[(1)];**
- ***Over half of Cogeco Cable's total indebtedness is refinanced to extend maturity and take advantage of historically low interest rates;***
- ***Quarterly dividend increased by 5.6%.***

Montréal, July 10, 2013 – Today, COGECO Inc. (TSX: CGO) ("COGECO" or the "Corporation") announced its financial results for the third quarter of fiscal 2013, ended May 31, 2013, in accordance with International Financial Reporting Standards ("IFRS").

For the third quarter and first nine months of fiscal 2013, which include six months operating results of Atlantic Broadband ("ABB") and four months operating results for Peer 1 Network Enterprises, Inc. ("PEER 1"):

- Third quarter revenue increased by 40.9% to reach $504.4 million and by 26.7% for the first nine months to reach $1.3 billion when compared to the same periods of the prior year;
- Operating income before depreciation and amortization increased by 39.2% to $220.6 million when compared to the third quarter of fiscal 2012, and by 29.3% to $573.1 million when compared to the first nine months of the prior year. Operating income before depreciation and amortization increases for both periods are mainly attributable to the acquisitions of ABB and PEER 1 ("recent acquisitions") as well as the improvement in the financial results of the Canadian operations in the Cable segment;
- Profit for the period from continuing operations amounted to $55.1 million in the third quarter compared to $55.4 million for the same period of the previous fiscal year. Profit for the period from continuing operations decreased slightly during the quarter mostly due to acquisition costs, additional depreciation and amortization and financial expense, including costs of approximately $3.5 million to refinance certain long-term debt with respect to the recent acquisitions, partly offset by operating income before depreciation and amortization generated by the Canadian operations and by the recent acquisitions in the Cable segment. For the first nine months of fiscal 2013, profit for the period from continuing operations amounted to $158.7 million compared to $129.3 million for the same period of fiscal 2012. Profit progression for the nine-month period is mostly attributable to the factors described above and by additional income tax expense;
- Profit for the period amounted to $55.1 million in the third quarter when compared to $55.4 million for the same period of the previous fiscal year due to the factors described in the paragraph above. For the first nine months of fiscal 2013, profit for the period amounted to $158.7 million when compared to $184.8 million for the same period of fiscal 2012 mostly attributable to the improvement of the Canadian operations in the Cable segment and by the recent acquisitions' financial results, offset by last year's profit from the Portuguese subsidiary, Cabovisão – Televisão por Cabo, S.A. ("Cabovisão"), reported as discontinued operations and disposed of on February 29, 2012 in the Cable segment;
- Free cash flow[(1)] reached $45.0 million for the third quarter compared to $29.5 million in the comparable quarter of the prior year. For the first nine months, free cash flow amounted to $98.0 million, compared to $73.8 million in the same period of fiscal 2012. The increase for both periods is mostly attributable to the Cable segment by the improvement of operating income before depreciation and amortization, partly offset by the increase in financial expense, the recent acquisition costs as well as the increase in acquisition of property, plant and equipment;

(1) The indicated terms do not have standard definitions prescribed by IFRS and therefore, may not be comparable to similar measures presented by other companies. For more details, please consult the "Non-IFRS financial measures" section of the Management's discussion and analysis.

- A quarterly dividend of $0.19 per share was paid to the holders of subordinate and multiple voting shares, an increase of $0.01 per share, or 5.6%, when compared to a dividend of $0.18 per share paid in the third quarter of fiscal 2012. Dividend payments in the first nine months totaled $0.57 per share in fiscal 2013, compared to $0.54 per share in fiscal 2012;

- In the Cable segment, fiscal 2013 third-quarter primary service units ("PSU")[(1)] decreased by 3,331 and increased by 15,851 for the first nine months of fiscal 2013. At May 31, 2013, consolidated PSU amounted to 2,470,164 of which 1,981,290 come from the Canadian operations and 488,874 from the American operations;

- On May 28, 2013, the First Lien Credit Facilities were amended. Pursuant to the amendment, US$50 million of the Term Loan A Facility was converted into the Revolving Facility resulting in amounts borrowed under these two tranches of US$190 million and of US$100 million, respectively, while the Term Loan B Facility remained the same. Interest rates on the First Lien Credit Facilities are based on LIBOR plus the applicable margin, with a LIBOR floor for the Term Loan B Facility. The applicable margin was reduced by 0.625% for the Revolving Facility and for the Term Loan A Facility and by 1.00% for the Term Loan B Facility. In addition, the LIBOR floor for the Term Loan B Facility was reduced from 1.00% to 0.75%. All other terms and conditions remained the same. In connection with the amendment, transaction costs of $US 6.2 million were incurred;

- On May 27, 2013, Cogeco Cable completed pursuant to a public debt offering, the issue of $300 million Senior Secured Debentures Series "4" (the "Debentures") for a net proceed of $297.1 million net of transaction costs of $2.9 million. The net proceeds from this offering were used to reduce indebtedness. These Debentures mature on May 26, 2023 and bear interest at 4.175% per annum payable semi-annually. These Debentures are indirectly secured by a first priority fixed and floating charge and a security interest on substantially all present and future real and personal property and undertaking of every nature and kind of Cogeco Cable and its subsidiaries except for ABB and certain immaterial subsidiaries (the "unrestricted subsidiaries"). The provisions under these Debentures provide for restrictions on the operations and activities of Cogeco Cable and its subsidiaries except for the unrestricted subsidiaries. Generally, the most significant restrictions relate to permitted indebtedness, dispositions and maintenance of certain financial ratios.

- On April 23, 2013, Cogeco Cable completed a private placement of $410.4 million (US$400 million) aggregate principal amount of Senior Unsecured Notes (the "2020 Notes") for a net proceed of $402.6 million (US$392.4 million), net of transaction costs of $7.8 million (US$7.6 million). The net proceeds from this offering were used to reduce indebtedness. These 2020 Notes mature on May 1, 2020 and bear interest at 4.875% per annum payable semi-annually. These 2020 Notes are guaranteed on a senior unsecured basis, jointly and severally, by its subsidiaries except for the unrestricted subsidiaries. The provisions under these 2020 Notes provide for restrictions on the operations and activities of Cogeco Cable and its subsidiaries except for the unrestricted subsidiaries. Generally, the most significant restrictions relate to permitted indebtedness, investments and distributions.

"We are satisfied with the favourable results obtained for the third quarter of fiscal 2013," declared Louis Audet, President and Chief Executive Officer of Cogeco Inc. "The cable subsidiary continues along a path of steady growth and profitability, as per expectations. In the last three months, we successfully refinanced over half of Cogeco Cable's indebtedness in order to take advantage of historically low interest rates. Average maturity was extended from 4.6 years to 6.1 years and fixed rate debt increased from 35% to 66%. Cogeco Cable is well positioned going forward," continued Louis Audet.

"Regarding our media business, Cogeco Diffusion Inc.'s radio business ratings continue to lead in many of its markets and we are pleased to see continued appetite for radio and transit advertising from our customers. Our media business is delivering results according to plan," concluded Louis Audet.

ABOUT COGECO

COGECO is a diversified communications corporation. Through its Cogeco Cable subsidiary, COGECO provides to its residential and business customers Analogue and Digital Television, High Speed Internet («HSI») and Telephony services. Cogeco Cable operates in Canada under the Cogeco Cable brand name in Quebec and Ontario, and in the United States through its subsidiary Atlantic Broadband in Western Pennsylvania, Southern Florida, Maryland, Delaware and South Carolina. Through its subsidiaries Cogeco Data Services and PEER 1 Hosting, Cogeco Cable provides to its commercial customers, a suite of IT hosting, information and communications technology services (Data Centre, Co-location, Managed Hosting, Cloud Infrastructure and Connectivity), with 23 data centres, extensive fibre networks in Montreal and Toronto as well as points-of-presence in North America and Europe. Through its subsidiary Cogeco Diffusion, COGECO owns and operates 13 radio stations across most of Québec with complementary radio formats serving a wide range of audiences as well as Cogeco News, its news agency. Cogeco Diffusion also operates Métromédia, an advertising representation house specialized in the public transit sector that holds exclusive advertising rights in the Province of Québec where it also represents its business partners active across other Canadian markets. COGECO's subordinate voting shares are listed on the Toronto Stock Exchange (TSX: CGO). The subordinate voting shares of Cogeco Cable are also listed on the Toronto Stock Exchange (TSX: CCA).

(1) Represents the sum of Television, High Speed Internet ("HSI") and Telephony service customers.

(3) Indebtedness is defined as the total of bank indebtedness, principal on long-term debt, balance due on business combinations and obligations under derivative financial instruments.

(4) Represents the sum of Television, High Speed Internet ("HSI") and Telephony service customers.

(5) Per multiple and subordinate voting share.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

Three and nine-months periods ended May 31, 2013

FORWARD-LOOKING STATEMENTS

Certain statements in this Management's Discussion and Analysis ("MD&A") may constitute forward-looking information within the meaning of securities laws. Forward-looking information may relate to COGECO's future outlook and anticipated events, business, operations, financial performance, financial condition or results and, in some cases, can be identified by terminology such as "may"; "will"; "should"; "expect"; "plan"; "anticipate"; "believe"; "intend"; "estimate"; "predict"; "potential"; "continue"; "foresee", "ensure" or other similar expressions concerning matters that are not historical facts. In particular, statements regarding the Corporation's future operating results and economic performance and its objectives and strategies are forward-looking statements. These statements are based on certain factors and assumptions including expected growth, results of operations, performance and business prospects and opportunities, which COGECO believes are reasonable as of the current date. While management considers these assumptions to be reasonable based on information currently available to the Corporation, they may prove to be incorrect. The Corporation cautions the reader that the economic downturn experienced over the past few years makes forward-looking information and the underlying assumptions subject to greater uncertainty and that, consequently, they may not materialize, or the results may significantly differ from the Corporation's expectations. It is impossible for COGECO to predict with certainty the impact that the current economic uncertainties may have on future results. Forward-looking information is also subject to certain factors, including risks and uncertainties (described in the "Uncertainties and main risk factors" section of the Corporation's 2012 annual MD&A, the Corporation's MD&A for the period ended February 28, 2013 as well as in the present MD&A) that could cause actual results to differ materially from what COGECO currently expects. These factors include risks pertaining to markets and competition, technology, regulatory developments, operating costs, information systems, disasters or other contingencies, financial risks related to capital requirements, human resources, controlling shareholder and holding structure, many of which are beyond the Corporation's control. Therefore, future events and results may vary significantly from what management currently foresees. The reader should not place undue importance on forward-looking information and should not rely upon this information as of any other date. While management may elect to, the Corporation is under no obligation and does not undertake to update or alter this information at any particular time, except as may be required by law.

All amounts are stated in Canadian dollars unless otherwise indicated. This report should be read in conjunction with the Corporation's condensed interim consolidated financial statements and the notes thereto, prepared in accordance with the International Financial Reporting Standards ("IFRS") and the MD&A included in the Corporation's 2012 Annual Report.

CORPORATE OBJECTIVES AND STRATEGIES

COGECO's objectives are to provide outstanding service to its customers and maximize shareholder value by increasing profitability and ensuring continued revenue growth. The strategies employed to reach these objectives, supported by tight controls over costs and business processes, are specific to each segment. The main strategies used to reach COGECO's objectives in the Cable segment focus on expanding its service offering, enhancing its existing services and bundles, improving customer experience and business processes as well as keeping a sound capital management and a strict control over spending. The radio activities focus on continuous improvement of its programming in order to increase its market share and thereby its profitability. The Corporation measures its performance, with regard to these objectives by monitoring operating income before depreciation and amortization[(1)], PSU[(2)] growth and free cash flow[(1)].

KEY PERFORMANCE INDICATORS

OPERATING INCOME BEFORE DEPRECIATION AND AMORTIZATION

For the nine-month period ended May 31, 2013, operating income before depreciation and amortization increased by 29.3% when compared to the same period of fiscal 2012 to reach $573.1 million. As a result of the improvement of operating income before depreciation and amortization in the Cable segment resulting essentially from cost reduction initiatives, management revised its April 10, 2013 projections for fiscal 2013. Operating income before depreciation and amortization is now expected to reach $795 million from $782 million. For further details, please consult the fiscal 2013 revised projections in the “Fiscal 2013 financial guidelines” section.

FREE CASH FLOW

For the nine-month period ended May 31, 2013, COGECO reports free cash flow of $98 million, compared to $73.8 million for the first nine months of the previous fiscal year, representing an increase of $24.2 million. This variance is mostly attributable to the improvement of operating income before depreciation and amortization in the Cable segment, partly offset by the increase in financial expense, the acquisition costs related to Atlantic Broadband (“ABB”) and Peer 1 Network Enterprises, Inc. ("PEER 1") acquisitions (the "recent acquisitions") as well as the increase in acquisition of property, plant and equipment.

CABLE SEGMENT

PSU growth and penetration of service offerings

During the nine-month period ended May 31, 2013, PSU reached 2,470,164 of which 1,981,290 come from the Canadian operations and 488,874 from the American operations. PSU for the American operations increased by 3,694 stemming primarily from additional HSI services, partly offset by losses in Television services. PSU for the Canadian operations increased by 12,157 when compared to an increase of 64,705 PSU for the comparable period of the prior year, mainly as a result of service category maturity and a more competitive environment in the Television services. Cogeco Cable maintains targeted marketing initiatives to increase the penetration level of its services.

BUSINESS DEVELOPMENTS AND OTHER

BBM Canada's spring 2013 survey in the Montréal region, conducted with the Portable People Meter (“PPM”), reported that 98.5 FM is the leading radio station in the Montreal French market amongst all listeners and men two years old and over (“2+”), while Rythme FM has maintained its leadership position in the female 2+ segment among the musical stations. Regarding the Montreal English market, *The Beat* is the leading radio station in the female 35-64 segment. In the other Quebec regions, our radio stations registered good ratings.

On July 5, 2013, Cogeco Cable reduced its Term Revolving Facility from $750 million to $600 million and its Revolving Facility of its Secured Credit Facilities from $240 million to $190 million.

On June 27, 2013, Cogeco Cable completed, pursuant to a private placement, the issuance of US$215 million Senior Secured Notes bearing interest at 4.30% payable semi-annually and maturing on June 16, 2025. The net proceeds from this offering along with drawings under the Corporation's credit facilities will be used to repay, on July 29, 2013, all the outstanding amount of $300 million Senior Secured Debentures Series 1, due on June 9, 2014.

On January 31, 2013, Cogeco Cable completed the acquisition of 96.57% of the issued and outstanding shares of PEER 1 by way of takeover bid (the “offer”) valued at approximately $649 million. On April 3, 2013, Cogeco Cable completed the acquisition of the remaining 3.43% of the issued and outstanding shares of PEER 1 for a cash consideration of $17 million pursuant to the compulsory acquisition provisions in Section 300 of the Business Corporations Act ("British Columbia"). In connection with the completion of the offer, Cogeco Cable has entered into secured credit facilities in the amount of approximately $650 million and maturing in 2017, with a syndicate of lenders. PEER 1 is one of the world’s leading internet infrastructure providers, specializing in managed hosting, dedicated servers, cloud services and co-location. This acquisition enhances Cogeco Cable footprint and builds on its strategic initiatives by increasing scale in an attractive industry segment with significant growth prospects in the state of the art data center platforms. Cogeco Cable will also serve additional businesses worldwide, in addition to approximately 11,000 customers currently served, through 23 data centres and 21 points-of-presence across North America and Europe. PEER 1's primary network centre and head office remain located in Vancouver.

(1) The indicated terms do not have standardized definitions prescribed by IFRS and therefore, may not be comparable to similar measures presented by other companies. For more details, please consult the "Non-IFRS financial measures" section.

(2) Represents the sum of Television, High Speed Internet ("HSI") and Telephony service customers.

On November 30, 2012, Cogeco Cable completed the acquisition of ABB, an independent cable system operator formed in 2003, serving about 485,000 PSU's and providing Analogue and Digital Television, as well as HSI and Telephony services. The acquisition is an attractive entry point into the United States of America ("US") market, providing a significant increase in PSU base with further growth potential, a high quality network infrastructure and the ability for the Corporation's management to leverage its core knowledge and operational experience. The transaction, valued at US$1.36 billion, was financed through a combination of cash on hand, a draw-down on the existing Term Revolving Facility of approximately US$588 million and US$660 million of borrowings under a new committed non-recourse debt financing at ABB. Ranked the 12th-largest cable television system operator in the US, ABB operates cable systems in Western Pennsylvania, Southern Florida, Maryland, Delaware and South Carolina.

OPERATING AND FINANCIAL RESULTS

OPERATING RESULTS

	Quarters ended			Nine months ended		
	May 31, 2013	May 31, 2012	Change	**May 31, 2013**	May 31, 2012	Change
(in thousands of dollars, except percentages)	**$**	$	%	**$**	$	%
Revenue	**504,434**	358,032	40.9	**1,329,543**	1,049,668	26.7
Operating expenses	**283,860**	199,586	42.2	**756,421**	606,443	24.7
Operating income before depreciation and amortization	**220,574**	158,446	39.2	**573,122**	443,225	29.3

REVENUE

Fiscal 2013 third-quarter revenue increased by $146.4 million or 40.9%, to reach $504.4 million, when compared to the same period last year. For the first nine months, revenue amounted to $1.3 billion, an increase of $279.9 million, or 26.7% when compared to the first nine months of fiscal 2012. Revenue increases for both periods are mainly attributable to the operating results of the Cable segment and the revenue generated by Métromédia CMR Plus Inc. ("Métromédia"), acquired during the second quarter of fiscal 2012.

In the Cable segment, fiscal 2013 third-quarter revenue increased by $144.7 million, or 45.3%, to reach $464.5 million, when compared to the same period last year. For the first nine months, revenue amounted to $1.2 billion, an increase of $269.2 million, or 28.2% when compared to the same period of fiscal 2012. For further details on the Cable segment's revenue, please refer to the "Cable segment" section.

OPERATING EXPENSES

For the third quarter of fiscal 2013, operating expenses increased by $84.3 million, or 42.2%, to reach $283.9 million. For the first nine months of the fiscal year, operating expenses amounted to $756.4 million, an increase of $150.0 million, or 24.7%, when compared to the same period of fiscal 2012. The increase in operating expenses is mainly attributable to the Cable segment operating results.

Fiscal 2013 third quarter operating expenses in the Cable segment increased by $82.3 million, or 49.2%, to reach $249.4 million. For the first nine months of the fiscal year, operating expenses amounted to $654.5 million, an increase of $139 million, or 27.0%, when compared to the same period of fiscal 2012. For further details on the Cable segment's revenue, please refer to the "Cable segment" section.

OPERATING INCOME BEFORE DEPRECIATION AND AMORTIZATION

Mainly as a result of higher growth from revenue than operating expenses stemming primarily from the Cable segment, operating income before depreciation and amortization increased by $62.1 million, or 39.2%, to reach $220.6 million in the third quarter and by $129.9 million, or 29.3% to reach $573.1 million for the first nine months of fiscal 2013, when compared to the same periods of the previous year. For further details on Cogeco Cable's operating results, please refer to the "Cable segment" section.

FIXED CHARGES

	Quarters ended			Nine months ended		
	May 31, 2013	May 31, 2012	Change	**May 31, 2013**	May 31, 2012	Change
(in thousands of dollars, except percentages)	**$**	$	%	**$**	$	%
Depreciation and amortization	**104,805**	62,973	66.4	**256,860**	214,071	20.0
Financial expense	**36,487**	17,822	—	**84,032**	51,710	62.5

For the three and nine-month periods ended May 31, 2013, depreciation and amortization expense reached $104.8 million and $256.9 million, respectively, compared to $63.0 million and $214.1 million for the same periods of the prior year, respectively, resulting mainly from Cogeco Cable's recent acquisitions and from additional acquisition of property, plant and equipment offset by higher fiscal 2012 depreciation expense related to the reduction of useful lives for certain home terminal devices in the Cable segment.

Fiscal 2013 third-quarter financial expense increased by $18.7 million to reach $36.5 million compared to $17.8 million in fiscal 2012 third-quarter. For the first nine months of fiscal 2013, financial expense increased by $32.3 million, or 62.5%, at $84.0 million, compared to $51.7 million in the prior year. Financial expense increased in both periods as a result of the cost of financing related to the recent acquisitions, including costs of approximately $3.5 million to refinance certain long-term debt with respect to these recent acquisitions.

INCOME TAXES

For the three and nine-month periods ended May 31, 2013, income tax expense amounted to $22.0 million and $56.6 million, respectively, compared to $22.3 million and $48.0 million, respectively, for the comparable periods in the prior year. The increase in the first nine months is mostly attributable to the improvement in operating income before depreciation and amortization, partly offset by the increase in depreciation and amortization and financial expense.

PROFIT FOR THE PERIOD FROM CONTINUING OPERATIONS

For the three-month period ended May 31, 2013, profit for the period from continuing operations amounted to $55.1 million of which $18.9 million, or $1.13 per share is attributable to owners of the Corporation, compared to a profit for the period from continuing operations of $55.4 million of which $19.3 million or $1.15 per share is attributable to owners of the Corporation for the comparable period. Profit for the period from continuing operations decreased slightly during the quarter mostly due to acquisition costs, additional depreciation and amortization and financial expense, including costs of approximately $3.5 million to refinance certain long-term debt with respect to the recent acquisitions, partly offset by operating income before depreciation and amortization generated by the Canadian operations and by the recent acquisitions in the Cable segment. For the nine-month period ended May 31, 2013, profit for the period from continuing operations amounted to $158.7 million of which $54.3 million, or $3.25 per share is attributable to owners of the Corporation, compared to a profit for the period from continuing operations of $129.3 million of which $45.3 million, or $2.71 per share is attributable to owners of the corporation for the comparable period. Profit progression for the period from continuing operations for the first nine months of fiscal 2013 is mostly due to the Cable segment and is attributable to the increase in operating income before depreciation and amortization, partly offset by the recent acquisitions costs and by the depreciation and amortization, financial expense and income tax increases explained above.

PROFIT FOR THE PERIOD

For the three and nine-month periods ended May 31, 2013, profit for the period amounted to $55.1 million and $158.7 million, respectively, compared to $55.4 million and $184.8 million for the comparable periods. Fiscal 2013 third-quarter profit for the period attributable to owners of the Corporation amounted to $18.9 million, or $1.13 per share, compared to $19.3 million, or $1.15 per share, in the third quarter of fiscal 2012. For the nine-month period ended May 31, 2013, profit for the period attributable to owners of the Corporation amounted to $54.3 million, or $3.25 per share, compared to $63.2 million, or $3.78 per share for the comparable period of fiscal 2012. The decline for the quarter is due to the factors described above and for the nine-month period to last year's profit from the Portuguese subsidiary, Cabovisão - Televisão por Cabo, S.A. (“Cabovisão”), reported as discontinued operations and disposed of on February 29, 2012 and by the increases in depreciation and amortization, financial expense and acquisition costs all related to the recent acquisitions in the Cable segment, partly offset by the improvement in operating income before depreciation and amortization generated by the Cable segment.

The non-controlling interest represents a participation of approximately 67.9% in Cogeco Cable's results. For the three and nine-month periods ended May 31, 2013, profit for the period attributable to non-controlling interest amounted to $36.2 million and $104.4 million, respectively, when compared to $36.1 million and $121.6 million for the comparable periods of fiscal 2012.

(1) For further details on the Corporation's cash flows attributable to discontinued operations, please refer to the "Disposal of subsidiary and discontinued operations" on note 14 of the condensed interim consolidated financial statements.

OPERATING ACTIVITIES

Fiscal 2013 third-quarter cash flow from operations reached $158.5 million compared to $117.6 million, an increase of $40.9 million or 34.7%, compared to the same period of prior year. For the first nine months, cash flow from operations reached $400.7 million compared to $327.5 million for the same period last year, an increase of $73.2 million, or 22.3%. Increases for both periods are primarily due to the improvement of operating income before depreciation and amortization, partly offset by financial expense increase and by the recent acquisition costs. For the third quarter, changes in non-cash operating activities generated cash outflows of $5.4 million compared to $20.5 million in the third quarter of fiscal 2012, mainly as a result of a lower decrease in trade and other payables compared to the prior year. For the first nine months, changes in non-cash operating activities generated cash outflows of $80.2 million compared to $85.3 million for the same period in fiscal 2012, mainly as a result of a decrease in provisions compared to an increase in prior year, partly offset by an increase in deferred and prepaid revenue and other liabilities compared to a decrease in the prior year.

INVESTING ACTIVITIES

BUSINESS COMBINATIONS IN FISCAL 2013

On March 6, 2013, the Corporation's subsidiary, Cogeco Cable, completed the working capital adjustments in relation to the ABB acquisition, which increased income tax receivable by $3.4 million and goodwill by $0.6 million, and decreased trade and other payables assumed by $1.5 million and income tax liabilities assumed by $0.1 million. In addition, on April 3, 2013, Cogeco Cable completed the acquisition of the remaining 3.43% of the issued and outstanding shares of PEER 1 for a cash consideration of $17 million. The acquisition of non-controlling interest has not changed the purchase price allocation. On January 31, 2013, Cogeco Cable, completed the acquisition of PEER 1 and on November 30, 2012, the acquisition of ABB. These acquisitions were accounted for using the purchase method. In addition, in the second quarter of fiscal 2013, Métromédia also completed the acquisition of a non-controlling interest participation of 27.5% in one of its subsidiaries for a cash consideration of approximately $0.5 million.

The preliminary purchase price allocation of these acquisitions, pending the completion of the valuation of the net assets acquired as well as Métromédia's non-controlling interest acquisition are as follows:

	Métromédia	PEER 1	ABB	TOTAL
	$	$	$	$

ACQUISITIONS OF PROPERTY, PLANT AND EQUIPMENT, INTANGIBLE AND OTHER ASSETS

For the three and nine-month periods ended May 31, 2013, acquisition of property, plant an equipment amounted to $109.0 million and $289.0 million, respectively, compared to $84.2 million and $243.2 million for the comparable periods of fiscal 2012 mainly as a results of the recent acquisitions and the following factors in the Cable segment:

- A decrease in scalable infrastructure due to the timing of initiatives to improve network capacity in existing areas served;
- A decrease in customer premise equipment, mainly due to the achievement in fiscal 2012 of the first phase in the conversion of Television service customers from analogue to digital and the lower PSU growth as a result of service maturity;
- An increase in network upgrade and rebuild to deploy advanced technologies such as DOCSIS 3.0 and Switched Digital Video in existing areas served; and
- An increase in data centre facilities capital expenditures mainly due to the construction of a new data centre facility in Barrie, Ontario, opened last June, and by the expansion of data centre facilities in Toronto, Canada and in Portsmouth, England as well as the fiber expansion in the Toronto area in order to fulfill orders from new customers demand.

Acquisition of intangible and other assets are mainly attributable to reconnect and additional service activation costs as well as other customer acquisition costs. For the third quarter and the first nine months of fiscal 2013, the acquisition of intangible and other assets amounted to $4.5 million and $13.7 million, compared to $4.0 million and $10.6 million for the same periods last year, respectively.

FREE CASH FLOW AND FINANCING ACTIVITIES

In the third quarter of fiscal 2013, free cash flow amounted to $45.0 million, $15.5 million, or 52.6%, higher than in the comparable period of fiscal 2012. For the first nine months period, free cash flow amounted to $98.0 million, $24.2 million, or 32.8%, higher than the same period of last year. Free cash flow increase for both periods over the prior year are due to the improvement of operating income before depreciation and amortization in the Canadian operation in the Cable segment as well as the recent acquisitions, partly offset by the increase in financial expense, the recent acquisition costs as well as the increase in acquisition of property, plant and equipment.

In the third quarter of fiscal 2013, higher Indebtedness level provided for a cash increase of $22.0 million mainly due to the issuance, in the Cable segment, of $300 million Senior Secured Debentures Series “4” (the “Debentures”) for a net proceed of $297.1 million, net of transaction costs of $2.9 million and the issuance of a private placement of $410.4 million (US$400 million) Senior Unsecured Notes (the “2020 Notes”) for a net proceed of $402.6 million (US$392.4 million), net of transaction costs of $7.8 million (US$7.6 million). In addition, the net proceeds under the Debentures and the 2020 Notes were used to repay the Canadian Term Facility amounting to $175 million, the US Term Facility amounting to $230.8 million (US$225 million), the $114.7 Revolving loan in connection with the financing of the acquisition of PEER 1 in the Cable segment and $192.4 million Term Revolving Facility. In the third quarter of fiscal 2012, Indebtedness remained essentially the same.

For the first nine months of fiscal 2013, higher Indebtedness level provided for a cash increase of $1.9 billion, mainly due to the issuance of the 2020 Notes and the Debentures, described above, as well as draw-down on the existing Term Revolving Facility of $411.9 million (US$420 million) including the repayment made during the quarter explained above and the new First Lien Credit of $637.4 million (US$660 million for a net proceed of US$641.5 million, net of transaction costs of US$18.5 million) to finance the acquisition of ABB as well to drawings of $125.1 million, under Secured Credit Facilities to finance the acquisition of PEER 1, net of the repayment made during the third quarter explained above. In the first nine months of fiscal 2012, Indebtedness affecting cash increased by $129.9 million mainly due to the issuance, on February 14, 2012, of $200 million Senior Secured Debentures Series 3 (“Fiscal 2012 debentures”) and on November 7, 2011, of Unsecured Notes for net proceeds of $198.1 million and $34.6 million, respectively, which was used to repay the $107.7 million Term Revolving Facilities.

During the third quarter of fiscal 2013, quarterly dividends of $0.19 per share were paid to the holders of subordinate and multiple voting shares, totaling $3.2 million, compared to quarterly dividends of $0.18 per share for a total of $3.0 million the year before. Dividend payments in the first nine months totaled $0.57 per share, or $9.5 million, compared to $0.54 per share, or $9.0 million the year before. In addition, dividends paid by a subsidiary to non-controlling interests in the third quarter amounted to $8.6 million and $25.7 million for the first nine months, compared to $8.2 million and $24.7 million, respectively, for the comparable periods of the prior year.

As at May 31, 2013, the Corporation had a working capital deficiency of $146.7 million compared to $18.5 million at August 31, 2012. The increase of $128.2 million in the deficiency is mainly due to the decrease of $175.9 million million in cash and cash equivalents, primarily used for the acquisition of ABB in the Cable segment. The deficiency was also impacted by an increase of $29.3 million in trade and other receivables, a decrease of $23.7 million in trade and other payables and by an increase of $14.7 million in deferred and prepaid revenue. As part of the usual conduct of its business, Cogeco Cable maintains a working capital deficiency due to a low level of accounts receivable as a large portion of the Corporation’s customers pay before their services are rendered, unlike trade and other payables, which are paid after products are delivered or services are rendered, thus enabling the Corporation to use cash and cash equivalents to reduce Indebtedness.

At May 31, 2013, the Corporation had used $76.1 million of its $100 million Term Revolving Facility for a remaining availability of $23.9 million and Cogeco Cable had used $439.9 million of its $750 million Term Revolving Facility for a remaining availability of $310.1 million. In addition, Cogeco Cable also benefits from additional Revolving Facilities of $251 million as a result of the acquisition of PEER 1, of which $131.7 million was used at May 31, 2013 for a remaining availability of $119.3 million. Two subsidiaries of Cogeco Cable also benefits from a Revolving Facility of $103.7 million (US$100 million) related to the acquisition of ABB, of which $55.7 million (US$53.7 million) was used at May 31, 2013 for a remaining availability of $48 million (US$46.3 million).

FINANCIAL POSITION

As a result of the acquisition of ABB and PEER 1 in the Cable segment, most financial position balances have changed significantly since August 31, 2012. For further details on the preliminary allocation of the purchase price of the acquisitions, please refer to the investing activities under the “Cash flow analysis” section.

OUTSTANDING SHARE DATA

A description of COGECO’s share data at June 30, 2013 is presented in the table below. Additional details are provided in note 10 of the condensed interim consolidated financial statements.

	Number of shares	Amount (in thousands of dollars)
Common shares		
Multiple voting shares	1,842,860	12
Subordinate voting shares	14,989,338	121,976

FINANCING

In the normal course of business, COGECO has incurred financial obligations, primarily in the form of long-term debt, operating and finance leases and guarantees. COGECO's obligations, as discussed in the 2012 Annual Report, have not materially changed since August 31, 2012, except as mentioned below.

On May 28, 2013, the First Lien Credit Facilities were amended. Pursuant to the amendment, US$50 million of the Term Loan A Facility was converted into the Revolving Facility resulting in amounts borrowed under these two tranches of US$190 million and of US$100 million, respectively, while the Term Loan B Facility remained the same. Interest rates on the First Lien Credit Facilities are based on LIBOR plus the applicable margin, with a LIBOR floor for the Term Loan B Facility. The applicable margin was reduced by 0.625% for the Revolving Facility and for the Term Loan A Facility and by 1.00% for the Term Loan B Facility. In addition, the LIBOR floor for the Term Loan B Facility was reduced from 1.00% to 0.75%. All other terms and conditions remained the same. In connection with the amendment, transaction costs of US$6.2 million were incurred. In connection with the acquisition of ABB on November 30, 2012, the Corporation initially concluded, through two of its US subsidiaries, First Lien Credit Facilities totaling US$710 in three tranches for a net proceed of US$641.5 million net of transaction costs of US$18.5 million. The first tranche, a Term Loan A Facility will mature on November 30, 2017, the second tranche, a Term Loan B Facility will mature on November 30, 2019 and the third tranche, a Revolving Credit Facility will mature on November 30, 2017. Effective on December 31, 2013, the Term Loan A Facility is subject to quarterly amortization of $3 million in the first year, $6 million in the second year and $7.2 million in the third and fourth years. Effective on December 31, 2012, the Term Loan B Facility is subject to quarterly amortization of 0.25% until its maturity date. In addition to the fixed amortization schedule and commencing in the first quarter of fiscal 2015, loans under the Term Loan Facilities shall be prepaid according to a Prepayment Percentage of excess cash flow generated during the prior fiscal year. The First Lien Credit Facilities are non-recourse to Cogeco Cable, its Canadian subsidiaries and PEER 1's subsidiaries and are indirectly secured by a first priority fixed and floating charge on substantially all present and future real and personal property and undertaking of every nature and kind of ABB and its subsidiaries. The provisions under these facilities provide for restrictions on the operations and activities of ABB and its subsidiaries. Generally, the most significant restrictions relate to permitted indebtedness and investments, distributions and maintenance of certain financial ratios.

On May 27, 2013, Cogeco Cable completed pursuant to a public debt offering, the issue of $300 million Senior Secured Debentures Series "4" (the "Debentures") for a net proceed of $297.1 million,net of transaction costs of $2.9 million. These Debentures mature on May 26, 2023 and bear interest at 4.175% per annum payable semi-annually. These Debentures are indirectly secured by a first priority fixed and floating charge and a security interest on substantially all present and future real and personal property and undertaking of every nature and kind of the Corporation and its subsidiaries except for ABB and certain immaterial subsidiaries ("unrestricted subsidiaries"). The provisions under these Debentures provide for restrictions on the operations and activities of Cogeco Cable and its subsidiaries except for the unrestricted subsidiaries. Generally, the most significant restrictions relate to permitted indebtedness, dispositions and maintenance of certain financial ratios.

On April 23, 2013, Cogeco Cable completed a private placement of $410.4 million (US$400 million) aggregate principal amount of Senior Unsecured Notes (the "2020 Notes") for a net proceed of $402.6 million (US$392.4 million) net of transaction costs of $7.8 million (US$7.6 million). These 2020 Notes mature on May 1, 2020 and bear interest at 4.875% per annum payable semi-annually. These 2020 Notes are guaranteed on a senior unsecured basis, jointly and severally, by its subsidiaries except for the unrestricted subsidiaries. The provisions under these 2020 Notes provide for restrictions on the operations and activities of Cogeco Cable and its subsidiaries except for the unrestricted subsidiaries. Generally, the most significant restrictions relate to permitted indebtedness, investments and distributions.

On April 23, 2013, the Corporation's subsidiary, Cogeco Cable, reimbursed the Canadian Term Facility of $175 million and the US Term Facility of US$225 million in connection with the financing for the acquisition of PEER 1. As a result of the acquisition of PEER 1 on January 31, 2013, Cogeco Cable concluded Secured Credit Facilities totaling approximately $650 million with a syndicate of lenders in four tranches for a net proceed of $640.3 million net of transaction costs of $2.8 million. The first tranche, a Canadian Term Facility amounting to $175 million, the second tranche, a US Term Facility amounting to US$225 million, the third tranche, a Revolving Facility of $240 million and the fourth tranche, a UK Revolving Facility of £7 million. The Revolving Facility is available in Canadian dollars, US dollars, British Pounds and Euros and interest rates are based on Bankers' Acceptance, LIBOR Loans in US dollars, British Pounds or Euros, Prime Rate Loans or US and British Pounds Base Rate Loans, plus the applicable margin. The UK Revolving Facility is available in British Pounds and interest rates are based on British Pounds Base Rate Loans or British Pounds LIBOR Loans. The Secured Credit Facilities will mature on January 31, 2017. The Secured Credit Facilities are indirectly secured by a first priority fixed and floating charge on substantially all present and future real and personal property and undertaking of every nature and kind of Cogeco Cable and most of its subsidiaries except for the unrestricted subsidiaries, and provides for certain permitted encumbrances, including purchased money obligations, existing funded obligations and charges granted by any subsidiary prior to the date when it becomes a subsidiary, subject to a maximum amount. The provisions under this facility provides for restrictions on the operations and activities of Cogeco Cable except for the unrestricted subsidiaries. Generally, the most significant restrictions relate to permitted investments and dividends on multiple and subordinate voting shares, as well as incurrence and maintenance of certain financial ratios primarily linked to operating income before amortization, financial expense and total indebtedness.

FINANCIAL MANAGEMENT

Cogeco Cable has entered into cross-currency swap agreements to set the liability for interest and principal payments on its US$190 million Senior Secured Notes Series A maturing on October 1, 2015. These agreements have the effect of converting the U.S. interest coupon rate of 7.00% per annum to an average Canadian dollar interest rate of 7.24% per annum. The exchange rate applicable to the principal portion of the debt has been fixed at $1.0625 per US dollar. Cogeco Cable elected to apply cash flow hedge accounting on these derivative financial instruments. During the first nine months of fiscal 2013, amounts due under the US$190 million Senior Secured Notes Series A increased by $9.7 million due to the US dollar's appreciation relative to the Canadian dollar. The fair value of cross-currency swaps liability decreased by a net amount of $9.3 million, of which a decrease of $9.7 million offsets the foreign exchange loss on the debt denominated in US dollars. The difference of $0.4 million was recorded as a decrease of other comprehensive income. During the first nine months of fiscal 2012, amounts due under the US$190 million Senior Secured Notes Series A increased by $10.2 million due to the US dollar's appreciation over the Canadian dollar. The fair value of cross-currency swaps liability decreased by a net amount of $11.4 million, of which $10.2 million offsets the foreign exchange loss on the debt denominated in US dollars.

Furthermore, Cogeco Cable's net investment in foreign subsidiaries is exposed to market risk attributable to fluctuations in foreign currency exchange rates, primarily changes in the values of the Canadian dollar versus the US dollar and British Pound. This risk was mitigated since the major part of the purchase prices for ABB and PEER 1 were borrowed directly in US dollars and British Pounds. These debts were designated as hedges of net investments in foreign operations. At May 31, 2013, the net investment for ABB and for PEER 1 amounted to US$1.1 billion and £66.6 million while long-term debt was amounted to US$841.7 million and £69.1 million. The exchange rate used to convert the US dollar currency and British Pound currency into Canadian dollars for the statement of financial position accounts at May 31, 2013 was $1.0368 per US dollar and $1.5752 per British Pound. The impact of a 10% change in the exchange rate of the US dollar and British Pound into Canadian dollars would change other comprehensive income by approximately $27.5 million.

The Corporation is also impacted by foreign currency exchange rates, primarily changes in the values of the US dollar relative to the Canadian dollar with regards to purchases of certain equipment, as the majority of customer premise equipment is purchased and subsequently paid in US dollars. Please consult the "Foreign Exchange Risk" section in Note 13 of the condensed interim consolidated financial statements for further details.

DIVIDEND DECLARATION

At its July 10, 2013 meeting, the Board of Directors of COGECO declared a quarterly eligible dividend of $0.19 per share for multiple voting and subordinate voting shares, payable on August 7, 2013, to shareholders of record on July 24, 2013. The declaration, amount and date of any future dividend will continue to be considered and approved by the Board of Directors of the Corporation based upon the Corporation's financial condition, results of operations, capital requirements and such other factors as the Board of Directors, at its sole discretion, deems relevant. There is therefore no assurance that dividends will be declared, and if declared, the amount and frequency may vary.

(1) Include 485,180 PSU (237,313 Television service, 169,553 HSI service and 78,314 Telephony service customers) from the acquisition of ABB. In the third quarter of fiscal 2013, PSU from ABB at November 30, 2012 and February 28, 2013 have been adjusted downwards to comply with Cogeco Cable's and Canadian practices mostly related to reporting the number of hotels and hotel units.

Fiscal 2013 third-quarter and first nine months, PSU net additions for the Canadian operations were lower than in the comparable period of the prior year mainly as a result of service category maturity, competitive offers and tightening of our customer credit qualifications. PSU net additions for the American operations were also lower than the last quarter resulting mainly from snowbirds returning home for the summer in its Miami cluster. For the third quarter net customer losses for Television service customers stood at 8,407 compared to 4,453 for fiscal 2012 third-quarter. Television service customer net losses are mainly due to the promotional offers of competitors for the video service combined with the tightening of our customer credit controls in Canada. Fiscal 2013 third-quarter HSI service customers grew by 2,351 compared to 2,835 in the third quarter of the prior year, and the number of net additions to the Telephony service stood at 2,725 customers compared to 7,864 customers for the same period of the prior year. For the nine-month periods, PSU net additions are stemming primarily from additional HSI services, partly offset by losses in Television services for both Canadian and American operations.

OPERATING RESULTS

	Quarters ended			Nine months ended		
	May 31, 2013	May 31, 2012	Change	**May 31, 2013**	May 31, 2012	Change
(in thousands of dollars, except percentages)	**$**	$	%	**$**	$	%
Revenue	**464,497**	319,771	45.3	**1,222,080**	952,930	28.2
Operating expenses	**249,365**	167,110	49.2	**654,477**	515,218	27.0
Management fees – COGECO Inc.	**—**	—	—	**9,569**	9,485	0.9
Operating income before depreciation and amortization	**215,132**	152,661	40.9	**558,034**	428,227	30.3
Operating margin	**46.3%**	47.7%		**45.7%**	44.9%	

Revenue

Fiscal 2013 third-quarter revenue increased by $144.7 million, or 45.3%, to reach $464.5 million, when compared to the same period last year. For the first nine months, revenue amounted to $1.2 billion, an increase of $269.2 million, or 28.2% when compared to the same period of fiscal 2012. Revenue increases for both periods are mainly attributable to the operating results of the recent acquisitions as well as rate increases implemented in June and July 2012 in the Canadian operations.

Operating expenses

For the third quarter of fiscal 2013, operating expenses increased by $82.3 million, or 49.2%, to reach $249.4 million. For the first nine months of the fiscal year, operating expenses amounted to $654.5 million, an increase of $139 million, or 27.0%, when compared to the same period of fiscal 2012. These additional operating expenses are mostly attributable to the recent acquisitions, partly offset by cost reduction initiatives and the reduction in operating expenses in the Canadian operations related to the deployment and support costs incurred in fiscal 2012 for the migration of Television service customers from analogue to digital.

Operating income before depreciation and amortization and operating margin

Fiscal 2013 third-quarter operating income before depreciation and amortization increased by $62.5 million, or 40.9%, to reach $215.1 million, and by $129.8 million, or 30.3%, to reach $558.0 million in the first nine months as a result of the recent acquisitions and the improvement in the Canadian operations. Cogeco Cable's third-quarter operating margin decreased to 46.3% from 47.7% mainly due to lower margins generated by PEER 1 acquisition and increased to 45.7% from 44.9% for the first nine months of fiscal 2013 when compared to the comparable periods of the prior year.

FISCAL 2013 FINANCIAL GUIDELINES

As a result of revised projections in the Cable segment described below, the Corporation revised its consolidated projections for the 2013 fiscal year. Operating income before depreciation and amortization should increase from $782 million to $795 million and financial expense should increase from $118 million to $131 million.

(in millions of dollars)	**Revised projections July 10, 2013 Fiscal 2013 $**	Revised projections April 10, 2013 Fiscal 2013 $
Financial guidelines		
Revenue	**1,835**	1,835
Operating income before depreciation and amortization	**795**	782
Integration, restructuring and acquisition costs	**17**	16
Financial expense	**131**	118
Current income tax expense	**94**	94
Profit for the year	**207**	207
Profit for the year attributable to owners of the Corporation	**69**	69
Acquisitions of property, plant and equipment, intangible and other assets	**404**	404
Free cash flow[(1)]	**150**	150

(1) Free cash flow is calculated as operating income before depreciation and amortization less integration, restructuring and acquisition costs, financial expense, current income tax expense and acquisitions of property, plant and equipment, intangible and other assets.

CABLE SEGMENT

Giving effect to the improvement of the Cogeco Cable's financial performance in the Canadian operations with regards to the operating income before depreciation and amortization mainly as a result of costs reduction initiatives, management revised upwards its operating income before depreciation and amortization projections issued on April 10, 2013 from $767 million to $780 million which should contribute to increase the operating margin from 45.2% to 46.0%. PSU growth should decline from 35,000 to 15,000 as a consequence of a more competitive environment in the Canadian operations combined with service category maturity and tighter customer credit qualification. However, revenue projections should remain the same as a result of the rate increases implemented in June 2013 in Quebec and Ontario. Furthermore, Cogeco Cable will use the net proceeds of the issuance of US$215 million Senior Secured Notes, under a private placement, on June 27, 2013, and borrow under its credit facilities to repay, on July 29, 2013, all the outstanding amount of $300 million Senior Secured Debentures Series 1, due on June 9, 2014. Therefore, financial expense should reach $125 million, an increase of $12 million, mainly as a result of the estimated make-whole premium on the early repayment of the Senior Secured Debentures Series 1.

Fiscal 2013 revised financial guidelines are as follows:

(in millions of dollars, except net customer additions and operating margin)	**Revised projections July 10, 2013 Fiscal 2013 $**	Revised projections April 10, 2013 Fiscal 2013 $

(1) Free cash flow is calculated as operating income before depreciation and amortization less integration, restructuring and acquisition costs, financial expense, current income tax expense and acquisitions of property, plant and equipment, intangible and other assets.

FISCAL 2014 PRELIMINARY FINANCIAL GUIDELINES

For fiscal 2014, COGECO expects revenue to reach $2.1 billion and operating income before depreciation and amortization should reach $900 million, as a result of Cogeco Cable's 2014 preliminary guidelines and the projected results of the radio and transit advertising activities. Free cash flow should generate approximately $230 million and profit for the year attributable to the owners of the Corporation should reach $82 million.

(in millions of dollars)	**Preliminary projections Fiscal 2014 $**	Revised projections July 10, 2013 Fiscal 2013 $
Financial guidelines		
Revenue	**2,075**	1,835

Profit for the year attributable to owners of the Corporation	**82**	69
Acquisitions of property, plant and equipment, intangible and other assets	**430**	404
Free cash flow[(1)]	**230**	150

(1) Free cash flow is calculated as operating income before depreciation and amortization less integration, restructuring and acquisition costs, financial expense, current income tax expense and acquisitions of property, plant and equipment, intangible and other assets.

CABLE SEGMENT

The fiscal 2014 preliminary financial guidelines take into consideration the current uncertain global economic environment. These preliminary guidelines also take into consideration the competitive environment that prevails in Canada, the deployment of new technologies such as Fibre to the Home ("FTTH"), Fibre to the Node (“FTTN”) and Internet Protocol Television (“IPTV”) by the incumbent telecommunications providers.

For fiscal 2014, Cogeco Cable expects to achieve revenue of $1.935 billion, representing growth of $240 million, or 14.2% when compared to the revised fiscal 2013 projections issued on July 10, 2013. Revenue should increase as a result of the full year impact from the recent acquisitions. In the Cable services segment, revenue should stem primarily from targeted marketing initiatives to improve penetration rates of the Digital Television, HSI and Telephony services. Furthermore, the Digital Television service should continue to benefit from the customers' ongoing strong interest in the Corporation's growing HD service offerings. Revenue will also benefit, in the Canadian cable services, from the impact of rate increases implemented in June 2013 in Quebec and Ontario, ranging on average between $2 to $3 per HSI and Telephony service customers. Cogeco Cable's strategies include consistently effective marketing to residential and business customers, competitive product offerings and superior customer service, which combined, lead to the expansion and loyalty of the Television service clientele. As the penetration of residential HSI, Telephony and Digital Television services increase, the new demand for these products should slow in the Canadian cable services, reflecting service category maturity. However, growth in the commercial and business sector is expected to continue at a consistent pace in the Cable services segment. In the Enterprise services segment, revenue growth should stem primarily from the hosting services and the opening of the Barrie data centre facility.

As a result of the full year impact from the recent acquisitions, the increased costs to service additional customers, inflation and manpower increases, as well as the continuation of the marketing initiatives and retention strategies, operating expenses are expected to expand by approximately $135 million, or 14.8% in the 2014 fiscal year when compared to the revised 2013 projections.

For fiscal 2014, Cogeco cable expects operating income before depreciation and amortization of $885 million, an increase of $105 million, or 13.5% when compared to the revised projections for 2013. The operating margin is expected to reach approximately 45.7% in fiscal 2014, compared to the revised projections for the 2013 fiscal year of 46.0%, reflecting operating expenses growth slightly higher than the revenue growth as well as lower margins business activities from the Enterprise services segment.

Cogeco Cable expects the depreciation and amortization of property, plant and equipment and intangible assets to increase by $67 million for fiscal 2014, mainly from the full year impact of recent acquisitions. Cash flows from operations should finance capital expenditures and the increase in intangible assets amounting to $425 million, an increase of $24 million when compared to the revised 2013 projections. Capital expenditures projected for the 2014 fiscal year are mainly due to scalable infrastructure for product enhancements and the deployment of new technologies, line extensions to expand existing territories, support capital to improve business information systems and support facility requirements and expansion for the Enterprise services segment in order to fulfill orders from new customers.

Fiscal 2014 free cash flow is expected to amount to $225 million, an increase of $80 million, or 55.2% when compared to the projected free cash flow of $145 million for fiscal 2013, resulting from the growth in operating income before depreciation and amortization, partly offset by additional capital expenditures and financial expense from the full year impact of the recent acquisitions of ABB and PEER 1 and by an increase in current income taxes. Generated free cash flow will reduce Indebtedness net of cash and cash equivalent, thus improving the Corporation's net leverage ratios. Financial expense should amount to $130 million an increase of $5 million related to ABB's and PEER 1's acquisition financing. As a result, profit for the year of approximately $245 million should be achieved compared to $205 million for the revised projections for fiscal 2013.

Fiscal 2014 preliminary financial guidelines are as follows:

(in millions of dollars, except operating margin)	**Preliminary projections Fiscal 2014 $**	Revised projections July 10, 2013 Fiscal 2013 $

Free cash flow[(1)]	**225**	145

(1) Free cash flow is calculated as operating income before depreciation and amortization less integration, restructuring and acquisition costs, financial expense, current income tax expense and acquisitions of property, plant and equipment, intangible and other assets.

CONTROLS AND PROCEDURES

The President and Chief Executive Officer (“CEO”) and the Senior Vice President and Chief Financial Officer (“CFO”), together with Management, are responsible for establishing and maintaining adequate disclosure controls and procedures and internal controls over financial reporting, as defined in National Instrument 52-109. COGECO’s internal control framework is based on the criteria published in the report *Internal Control-Integrated Framework* issued by the *Committee of Sponsoring Organizations of the Treadway Commission* and is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS.

The CEO and CFO, supported by Management, evaluated the design of the Corporation’s disclosure controls and procedures and internal controls over financial reporting as of May 31, 2013, and have concluded that they are adequate. Furthermore, no significant changes to the internal controls over financial reporting occurred during the quarter ended May 31, 2013, except as described below with respect to ABB and PEER 1.

On November 30, 2012, the Corporation's subsidiary, Cogeco Cable, completed the acquisition of ABB and, subsequently on January 31, 2013 and April 3, 2013, the Corporation acquired 100% of the issued and outstanding shares of PEER 1. Due to the short period of time between those acquisition dates and the certification date on July 10, 2013, management was unable to complete its review of the design of Internal Controls Over Financial Reporting ("ICFR") for the recent acquisitions. At May 31, 2013, risks were however mitigated as management was fully apprised of any material events affecting these recent acquisitions. In addition, all the assets and liabilities acquired were valued and recorded in the condensed interim consolidated financial statements as part of the preliminary purchase price allocation process and both ABB and PEER 1 results of operations were also included in the Corporation's consolidated results. ABB constitutes 13% of revenue, 13% of profit of the period, 32% of the total assets, 18% of the current assets, 32% of the non current assets, 13% of the current liabilities and 32% of the non current liabilities of the consolidated condensed interim financial statements for the nine-month period ended May 31, 2013. PEER 1 constitutes 4% of revenue, -8% of profit of the period, 14% of the total assets, 9% of the current assets, 14% of the non current assets, 9% of the current liabilities and 10% of the non current liabilities of the consolidated condensed interim financial statements for the nine-month period ended May 31, 2013. In the upcoming quarters, management will complete its review of the design of ICFR for ABB and PEER 1 and assess its effectiveness. The business combinations of fiscal 2013 under the "Cash flow analysis" section of this MD&A presents summary financial information about the preliminary purchase price allocation, assets acquired and liabilities assumed as well as other financial information about ABB and PEER 1 business impact on the consolidated results of the Corporation. Other financial information about ABB can be found in the Business Acquisition Report filed by the Corporation on www.sedar.com, on February 13, 2013.

UNCERTAINTIES AND MAIN RISK FACTORS

The uncertainties and main risk factors faced by the Corporation have not changed significantly for its Canadian cable services since August 31, 2012, except for the proposed Astral/Bell amended Arrangement Agreement described below. A detailed description of the uncertainties and main risk factors faced by COGECO can be found in the 2012 Annual Report and the Corporation's MD&A for the period ended February 28, 2013 filed on SEDAR, available at www.sedar.com.

On June 27, 2013, the CRTC approved the application by Astral Media Inc. (“Astral”) to transfer the control of Astral to BCE Inc. (“Bell”). The CRTC concluded that the transaction as modified is in the public interest and advances the objectives set out for the Canadian broadcasting. Specific measures have been imposed by the CRTC to ensure that the transaction benefits Canadians and the Canadian broadcasting system. As a part of the conditions, BCE will have to sell 10 of the radio stations it acquired in the deal as well as 11 specialty TV channels and be subject to greater increase of regulatory oversight with respect to affiliation agreements. Bell will control over forty percent (40 %) of Cogeco Cable's programming service affiliation payments at current wholesale rates. In the event of future disputes concerning the terms of affiliation between Cogeco Cable and Bell for services controlled by Bell, the CRTC may set such terms at either party's request following a dispute resolution process, and the services may not be interrupted by either party while such dispute resolution process is pending.

FUTURE ACCOUNTING DEVELOPMENTS IN CANADA

A number of new standards, interpretations and amendments to existing standards were issued by the International Accounting Standard Board (“IASB”) that are mandatory but not yet effective for the period ended May 31, 2013 and have not been applied in preparing the condensed interim consolidated financial statements. These standards are described under “Future accounting developments in Canada” in the Corporation’s 2012 annual MD&A, available at www.sedar.com and www.cogeco.ca.

CHANGES IN CRITICAL ACCOUNTING POLICIES AND ESTIMATES

There has been no significant change in COGECO’s accounting policies, estimates and future accounting pronouncements since August 31, 2012. A description of the Corporation’s policies and estimates can be found in the 2012 Annual Report, available at www.sedar.com and www.cogeco.ca.

NON-IFRS FINANCIAL MEASURES

This section describes non-IFRS financial measures used by COGECO throughout this MD&A. It also provides reconciliations between these non-IFRS measures and the most comparable IFRS financial measures. These financial measures do not have standard definitions prescribed by IFRS and therefore, may not be comparable to similar measures presented by other companies. These measures include “cash flow from operations”, “free cash flow” and “operating income before depreciation and amortization”.

CASH FLOW FROM OPERATIONS AND FREE CASH FLOW

Cash flow from operations is used by COGECO’s management and investors to evaluate cash flows generated by operating activities, excluding the impact of changes in non-cash operating activities, amortization of deferred transaction costs and discounts on long-term debt, income taxes paid, current income tax expense, financial expense paid and financial expense. This allows the Corporation to isolate the cash flows from operating activities from the impact of cash management decisions. Cash flow from operations is subsequently used in calculating the non-IFRS measure, “free cash flow”. Free cash flow is used, by COGECO’s management and investors, to measure its ability to repay debt, distribute capital to its shareholders and finance its growth.

The most comparable IFRS measure is cash flow from operating activities. Cash flow from operations is calculated as follows:

	Quarters ended		Nine months ended	
	May 31, 2013	May 31, 2012	**May 31, 2013**	May 31, 2012
(in thousands of dollars)	**$**	$	**$**	$
Cash flow from operating activities	**167,641**	109,546	**318,731**	245,571
Changes in non-cash operating activities	**5,443**	20,507	**80,194**	85,288
Amortization of deferred transaction costs and discounts on long-term debt	**3,520**	1,681	**7,237**	3,357
Income taxes paid	**17,031**	10,634	**79,490**	67,711
Current income tax expense	**(27,563)**	(25,016)	**(76,227)**	(72,306)
Financial expense paid	**28,876**	18,076	**75,271**	49,587
Financial expense	**(36,487)**	(17,822)	**(84,032)**	(51,710)
Cash flow from operations	**158,461**	117,606	**400,664**	327,498

Free cash flow is calculated as follows:

	Quarters ended		Nine months ended	
	May 31, 2013	May 31, 2012	**May 31, 2013**	May 31, 2012
(in thousands of dollars)	**$**	$	**$**	$
Cash flow from operations	**158,461**	117,606	**400,664**	327,498
Acquisition of property, plant and equipment	**(108,976)**	(84,161)	**(289,016)**	(243,161)
Acquisition of intangible and other assets	**(4,516)**	(3,980)	**(13,650)**	(10,570)
Free cash flow	**44,969**	29,465	**97,998**	73,767

OPERATING INCOME BEFORE DEPRECIATION AND AMORTIZATION

Operating income before depreciation and amortization is used by COGECO’s management and investors to assess the Corporation’s ability to seize growth opportunities in a cost effective manner, to finance its ongoing operations and to service its debt. Operating income before depreciation and amortization is a proxy for cash flows from operations excluding the impact of the capital structure chosen, and is one of the key metrics used by the financial community to value the business and its financial strength.

The most comparable IFRS financial measure is operating income. Operating income before depreciation and amortization is calculated as follows:

	Quarters ended		Nine months ended	
	May 31, 2013	May 31, 2012	**May 31, 2013**	May 31, 2012
(in thousands of dollars, except percentages)	**$**	$	**$**	$
Operating income	**113,609**	95,473	**299,350**	229,046
Depreciation and amortization	**104,805**	62,973	**256,860**	214,071
Integration, restructuring and acquisitions costs	**2,160**	—	**16,912**	108
Operating income before depreciation and amortization	**220,574**	158,446	**573,122**	443,225

(1) Per multiple and subordinate voting share.

SEASONAL VARIATIONS

Cogeco Cable's operating results are not generally subject to material seasonal fluctuations except as follows. The customer growth in the Television service customers and HSI service are generally lower in the second half of the fiscal year as a result of a decrease in economic activity due to the beginning of the vacation period, the end of the television season, and students leaving their campuses at the end of the school year. Cogeco Cable offers its services in several university and college towns such as Kingston, Windsor, St.Catharines, Hamilton, Peterborough, Trois-Rivières and Rimouski in Canada. In the American operations, the customer growth in the Television service customers and HSI service are also generally lower in the second half of the fiscal year as a result of a decrease in economic activity due to the snowbirds leaving for the summer season essentially in the Miami area.

ADDITIONAL INFORMATION

This MD&A was prepared on July 10, 2013. Additional information relating to the Corporation, including its Annual Information Form, is available on the SEDAR website at www.sedar.com.

NATURE OF OPERATIONS

COGECO Inc. (the “Corporation” or the “Parent Corporation”) is a Canadian public corporation whose shares are listed on the Toronto Stock Exchange (“TSX”). The Corporation is engaged in Cable Television, High Speed Internet (“HSI”), Telephony, managed information technology and infrastructure, and other telecommunications services to its residential and commercial customers in Canada, in the United States of America (“US”), in the United Kingdom ("UK") and in France through Cogeco Cable Inc., and in Radio broadcasting through Cogeco Diffusion Acquisitions Inc. (“Cogeco Diffusion”) and operates an advertising public transit business through Métromédia CMR Plus Inc. (“Métromédia”) (see note 3).

The Corporation's registered office is located at 5 Place Ville Marie, Suite 1700, Montréal, Québec, H3B 0B3.

1. Basis of Presentation

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standards (“IAS”) 34 *Interim Financial Reporting* and do not include all of the information required for full annual financial statements. Certain information and footnote disclosure normally included in annual financial statements were omitted or condensed where such information is not considered material to the understanding of the Corporation's interim financial information. As such, these condensed interim consolidated financial statements should be read in conjunction with the Corporation's 2012 annual consolidated financial statements.

These condensed interim consolidated financial statements have been prepared with the accounting policies the Corporation adopted in its 2012 annual consolidated financial statements. The accounting policies have been applied consistently to all periods presented in the condensed interim consolidated financial statements unless otherwise indicated.

The condensed interim consolidated financial statements have been prepared on a going concern basis using historical cost except for derivative financial instruments and cash-settled share-based payment arrangements, which are measured at fair value and for the pension plan liabilities and accrued employee benefits, which are measured at present value.

Financial information is presented in Canadian dollars, which is the functional currency of COGECO Inc.

The results of operations for the interim period are not necessarily indicative of the results of operations for the full year. The Corporation does not expect seasonality to be a material factor in quarterly results except that the customer growth in the Cable Television and HSI service are generally lower in the second half of the fiscal year as a result of a decrease in economic activity due to the beginning of the vacation period, the end of the television season, and students leaving their campuses at the end of the school year in Canada, and in the US, snowbirds leaving for the summer season in the Miami area.

The condensed interim consolidated financial statements were approved by the Board of Directors of COGECO Inc. at its meeting held on July 10, 2013.

2. Business Combinations

Business Combinations in fiscal 2013

On November 30, 2012, the Corporation's subsidiary, Cogeco Cable, completed the acquisition of all the outstanding shares of Atlantic Broadband ("ABB"), an independent cable system operator formed in 2003, serving about 485,000 primary service units and providing Analogue and Digital Television, as well as HSI and Telephony services. The acquisition is an attractive entry point into the US market, providing a significant increase in Primary Service Units base with further growth potential, a high quality network infrastructure and the ability for the Corporation's management to leverage its core knowledge and operational experience. The transaction, valued at US$1.36 billion, was financed through a combination of cash on hand, a draw-down on the existing Term Revolving Facility of approximately US$588 million and US$660 million of borrowings under a new committed non-recourse debt financing at ABB (see note 9 d)). Ranked the 12th-largest cable television system operator in the US, ABB operates cable systems in Western Pennsylvania, Southern Florida, Maryland, Delaware and South Carolina.

On January 31, 2013, the Corporation's subsidiary, Cogeco Cable, acquired approximately 96.57% of the issued and outstanding shares of Peer 1 Network Enterprises, Inc. ("PEER 1"). The transaction, valued at approximately $649 million, was financed by new secured revolving credit facilities in the amount of approximately $250 million as well as new secured term credit facilities in the amount of approximately $400 million both having a maturity of four years (see note 9 a)). PEER 1 is one of the world's leading internet infrastructure providers, specializing in managed hosting, dedicated servers, cloud services and collocation. This acquisition enhances Cogeco Cable's footprint and builds on its strategic initiatives by increasing scale in an attractive industry segment with significant growth prospects in the state of the art data center platforms. The Corporation will also serve additional businesses worldwide, in addition to approximately 11,000 customers currently served, through 23 data centres and 21 points-of-presence across North America and Europe. PEER 1's primary network centre and head office remain located in Vancouver.

On March 6, 2013, the Corporation's subsidiary, Cogeco Cable, completed the working capital adjustments in relation to the ABB acquisition, which increased Income tax receivable by $3.4 million and goodwill by $0.6 million, and decreased trade and other payables assumed by $1.5 million and income tax liabilities assumed by $0.1 million.

On April 3, 2013, Cogeco Cable Inc. completed the acquisition of the remaining 3.43% of the issued and outstanding shares of PEER 1 pursuant to the compulsory acquisition provisions in Section 300 of the Business Corporations Act ("British Columbia") for a cash consideration of $17 million. The acquisition of non-controlling interest resulted in no changes to the preliminary purchase price allocation.

In addition, Métromédia also completed the acquisition of a non-controlling interest participation of 27.5% in one of its subsidiaries for a cash consideration of approximately $0.5 million.

The preliminary purchase price allocation of these acquisitions, pending the completion of the valuation of the net assets acquired as well as Metromedia's non-controlling interest acquisition are as follows:

ABB

The amount of goodwill, none of which is expected to be deductible for tax purposes, is mainly attributable to revenue and operating income before depreciation and amortization growth, future market development related to the entry of the Corporation's subsidiary, Cogeco Cable, in the US market, expected benefits from the corporate tax structure and from the future utilization of tax losses carryforward and to the strength of ABB assembled workforce.

In connection with this acquisition, the Corporation's subsidiary, Cogeco Cable, incurred acquisition-related costs of $11.1 million of which $9.4 million have been recognized in the current year as “Integration, restructuring and acquisition costs” in the Corporation’s consolidated statements of profit or loss.

PEER 1

The amount of goodwill, none of which is expected to be deductible for tax purposes, is mainly attributable to revenue and operating income before depreciation and amortization growth in the Enterprise service segment, future development of service suite for businesses across the Canadian, US and European markets, to the expected benefits from the corporate tax structure and to the strength of PEER 1's assembled workforce.

In connection with this acquisition, the Corporation's subsidiary, Cogeco Cable, incurred acquisition-related costs of $7.4 million which have been recognized in the current year as “Integration, restructuring and acquisition costs” in the Corporation's consolidated statements of profit or loss.

Impact of acquisitions on the results of COGECO Inc.

Revenue and profit for the period for the three and nine-month periods ended May 31, 2013, include revenue of $90.4 million and $176.2 million and profit for the period of $13.3 million and $20.1 million, respectively, attributable to the additional operations generated by ABB and revenue of $44.2 million and $58.5 million and loss for the period of $9.6 million and $15.5 million, respectively, attributable to the additional operations generated by PEER 1.

Had the business combinations been effective at September 1, 2012, the consolidated revenue of the Corporation would have been $1.5 billion and the profit for the year would have been $158.1 million. Management considers these "pro-forma" numbers to represent an approximate measure of the performance of the combined group and to provide a reference point for comparison in future periods. In determining these amounts, management has assumed that the fair value adjustments, determined provisionally, that arose on the dates of acquisitions would have been the same, in all material respects, as if the acquisition had occurred on September 1, 2012.

Business Combination in fiscal 2012

During the second quarter, the Corporation completed the purchase price allocation of Métromédia which was acquired on December 26, 2011. Accordingly, the final purchase price allocation is as follows:

	Preliminary	**Final**
	$	**$**
Consideration		
Paid		
Purchase of shares	36,860	**36,860**
Repayment of secured debt	2,140	**2,140**
	39,000	**39,000**
Balance due on a business combination, bank prime rate plus 1% and payable in June 2013	2,000	**2,000**
	41,000	**41,000**
Net assets acquired		
Cash and cash equivalents	3,265	**3,265**

Income tax receivable	234	**132**
Property, plant and equipment	4,764	**4,645**
Intangible assets	14,747	**14,747**
Goodwill	20,171	**20,540**
Trade and other payables assumed	(4,615)	**(4,786)**
Income tax liabilities	(142)	**—**
Deferred and prepaid revenue and other liabilities assumed	(374)	**(615)**
Deferred tax liabilities	(3,887)	**(3,887)**
Non-controlling interest	(462)	**(462)**
	41,000	**41,000**

3. Operating Segments

The Corporation's profit for the year are reported in two operating segments: Cable and other.

The Cable segment provides a wide range of Analogue and Digital Television, HSI and Telephony services primarily to residential customers. It also provides business solutions, including data networking, Ethernet, hosting, HSI access and Voice over Internet Protocol ("VoIP") services, to small and medium sized businesses. The segment also provides data centre, managed IT and connectivity services for medium and large enterprises and public sector customers, and high-performance Ethernet broadband connectivity services to carriers. This segment's offerings includes the provision of physical space and power within its high security data centres and a new suite of managed IT and infrastructure services as well as a full suite of connectivity services provisioned over its wholly-owned optical networks.

The Other segment is comprised of radio, advertising transit businesses sector, head office activities as well as inter-segment eliminations.

The activities of the Cable segment are carried out in Canada, in the US and in Europe, mostly in the UK, and the activities of the Other segment are carried out in Canada.

The Corporation assesses the performance of each segment based on segment profit or loss. Transactions between segments are measured at amounts agreed to between the parties.

The principal financial information per operating segment is presented in the table below:

(1) On November 30, 2012, the Corporation amended its Term Revolving Facility. Under the term of the amendment, the maturity was extended by an additional year and consequently, the Term Revolving Facility will mature on February 1, 2017.

(2) Interest rate on debt as at May 31, 2013, including applicable margin.

(3) On October 26, 2012, the Corporation's subsidiary, Cogeco Cable Inc., amended its Term Revolving Facility. Under the term of the amendment, the maturity will be extended by an additional year and consequently the Term Revolving Facility will mature on November 22, 2017.

(4) Cross-currency swap agreements have resulted in an effective interest rate of 7.24% on the Canadian dollar equivalent of the US denominated debt.

(5) Weighted average interest rate on finance leases.

a) As a result of the acquisition of PEER 1 on January 31, 2013, the Corporation's subsidiary, Cogeco Cable Inc., concluded Secured Credit Facilities totaling approximately $650 million with a syndicate of lenders in four tranches for a net proceed of $640.3 million net of transaction costs of $2.8 million. The first tranche, a Canadian Term Facility amounting to $175 million, the second tranche, a US Term Facility amounting to US$225 million, the third tranche, a Revolving Facility of $240 million and the fourth tranche, a UK Revolving Facility of £7 million. The Revolving Facility is available in Canadian dollars, US dollars, British Pounds and Euros and interest rates are based on Bankers' Acceptance, LIBOR Loans in US dollars, British Pounds or Euros, Prime Rate Loans or Base Rate Loans in US dollars or British Pounds, plus the applicable margin. The UK Revolving Facility is available in British Pounds and interest rates are based on British Pounds Base Rate Loans or British Pounds LIBOR Loans. The Secured Credit Facilities will mature on January 27, 2017. The Secured Credit Facilities are indirectly secured by a first priority fixed and floating charge on substantially all present and future real and personal property and undertaking of every nature and kind of Cogeco Cable and most of its subsidiaries excluding ABB and its subsidiaries and certain immaterial subsidiaries (the "unrestricted subsidiaries"), and provides for certain permitted encumbrances, including purchased money obligations, existing funded obligations and charges granted by any subsidiary prior to the date when it becomes a subsidiary, subject to a maximum amount. The provisions under this facility provides for restrictions on the operations and activities of Cogeco Cable but does not cover the unrestricted subsidiaries. Generally, the most significant restrictions relate to permitted investments and dividends on multiple and subordinate voting shares, as well as incurrence and maintenance of certain financial ratios primarily linked to operating income before amortization, financial expense and total indebtedness.

On April 23, 2013, the Corporation's subsidiary, Cogeco Cable, reimbursed the Canadian Term Facility amounting $175 million and the US Term Facility amounting US$225 million.

b) On May 27, 2013, the Corporation's subsidiary, Cogeco Cable completed pursuant to a public debt offering, the issue of $300 million Senior Secured Debentures Series "4" (the "Debentures") for a net proceed of $297.1 million net of transaction costs of $2.9 million. These Debentures mature on May 26, 2023 and bear interest at 4.175% per annum payable semi-annually. These Debentures are indirectly secured by a first priority fixed and floating charge and a security interest on substantially all present and future real and personal property and undertaking of every nature and kind of the Corporation and its subsidiaries except for the unrestricted subsidiaries. The provisions under these Debentures provide for restrictions on the operations and activities of Cogeco Cable and its subsidiaries except for the unrestricted subsidiaries. Generally, the most significant restrictions relate to permitted indebtedness, dispositions and maintenance of certain financial ratios.

c) On April 23, 2013, the Corporation's subsidiary, Cogeco Cable completed a private placement of $410.4 million (US$400 million) aggregate principal amount of Senior Unsecured Notes (the "2020 Notes") for a net proceed of $402.6 million (US$392.4 million) net of transaction costs of $7.8 million (US$7.6 million). These 2020 Notes mature on May 1, 2020 and bear interest at 4.875% per annum payable semi-annually. These 2020 Notes are guaranteed on a senior unsecured basis, jointly and severally, by its subsidiaries except for the unrestricted subsidiaries. The provisions under these 2020 Notes provide for restrictions on the operations and activities of Cogeco Cable and its subsidiaries except for the unrestricted subsidiaries. Generally, the most significant restrictions relate to permitted indebtedness, investments and distributions.

d) In connection with the acquisition of ABB by the Corporation's subsidiary, Cogeco Cable Inc., on November 30, 2012, Cogeco Cable Inc., concluded through two of its US subsidiaries, First Lien Credit Facilities totaling US$710 in three tranches for a net proceed of US$641.5 million net of transaction costs of US$18.5 million. The first tranche, a Term Loan A Facility will mature on November 30, 2017, the second tranche, a Term Loan B Facility will mature on November 30, 2019 and the third tranche, a Revolving Credit Facility will mature on November 30, 2017. Effective on December 31, 2013, the Term Loan A Facility is subject to quarterly amortization of US$3 million in the first year, US$6 million in the second year and US$7.2 million in the third and fourth years. Effective on December 31, 2012, the Term Loan B Facility is subject to quarterly amortization of 0.25% until its maturity date. In addition to the fixed amortization schedule and commencing in the first quarter of fiscal 2015, loans under the Term Loan Facilities shall be prepaid according to a Prepayment Percentage of excess cash flow generated during the prior fiscal year defined as follows:

(i) 50% if the Consolidated First Lien Leverage Ratio is greater than or equal to 4.00 to 1.00;
(ii) 25% if the Consolidated First Lien Leverage Ratio is greater than or equal to 3.00 to 1.00 but less than 4.00 to 1.00; and
(iii) 0% if the Consolidated First Lien Leverage Ratio is less than 3.00 to 1.00.

The First Lien Credit Facilities are non-recourse to Cogeco Cable and its Canadian subsidiaries and PEER 1's subsidiaries and are indirectly secured by a first priority fixed and floating charge on substantially all present and future real and personal property and undertaking of every nature and kind of ABB and its subsidiaries. The provisions under these facilities provide for restrictions on the operations and activities of ABB and its subsidiaries. Generally, the most significant restrictions relate to permitted indebtedness and investments, distributions and maintenance of certain financial ratios.

On May 28, 2013, the First Lien Credit Facilities were amended. Pursuant to the amendment, US$50 million of the Term Loan A Facility was converted into the Revolving Facility resulting in amounts borrowed under the two tranches of US$190 million and of US$100 million, respectively, while the Term Loan B Facility remained the same. Interest rates on the First Lien Credit Facilities are based on LIBOR plus the applicable margin, with a LIBOR floor for the Term Loan B Facility. The applicable margin was reduced by 0.625% for the Revolving Facility and for the Term Loan A Facility and by 1.00% for the Term Loan B Facility. In addition, the LIBOR floor for the Term Loan B Facility was reduced from 1.00% to 0.75%. All other terms and conditions remained the same. In connection with the amendment, transaction costs of US$6.2 million were incurred.

10. Share Capital

Authorized

Unlimited number of:

Preferred shares of first and second rank, issuable in series and non-voting, except when specified in the Articles of Incorporation of the Corporation or in the Law.

Multiple voting shares, 20 votes per share.

Subordinate voting shares, 1 vote per share.

1,842,860 multiple voting shares	**12**	12
14,989,338 subordinate voting shares	**121,976**	121,976
	121,988	121,988
107,124 subordinate voting shares held in trust under the Incentive Share Unit Plan (112,471 at August 31, 2012)	**(4,219)**	(4,052)
	117,769	117,936

During the first nine months of fiscal 2013, subordinate voting shares held in trust under the Incentive Share Unit Plan transactions were as follows:

	Number of shares	**Amount**
		$
Balance at August 31, 2012	**112,471**	**4,052**
Subordinate voting shares acquired	**35,630**	**1,201**
Subordinate voting shares distributed to employees	**(40,977)**	**(1,034)**
Balance at May 31, 2013	**107,124**	**4,219**

Dividends

For the nine-month period ended May 31, 2013, quarterly dividends of $0.19 per share, for a total of $0.57 per share, were paid to the holders of multiple and subordinate voting shares, totaling $9.5 million, compared to quarterly dividends of $0.18 per share, for a total of $0.54 per share or $9 million for the nine-month period ended May 31, 2012.

Share-based payment plans

The Corporation and its subsidiary, Cogeco Cable Inc., offer for certain executives Stock Option Plans, which are described in the Corporation's annual consolidated financial statements. During the nine-month periods ended May 31, 2013 and May 31, 2012, no stock options were granted to employees by COGECO. Under the Stock Option Plan of the Corporation, no options were outstanding at May 31, 2013 and August 31, 2012. However, for the nine-month period ended May 31, 2013, the Corporation's subsidiary, Cogeco Cable Inc., granted 207,142 stock options (91,961 in 2012) with an exercise price of $38.08 to $45.60 ($48.02 to $48.15 in 2012) of which 71,233 stock options (47,729 in 2012) were granted to COGECO's employees. These options vest equally over a period of five years beginning one year after the day such options are granted and are exercisable over ten years. During the three and nine-month periods ended May 31, 2013, Cogeco Cable Inc. charged COGECO an amount of $99,000 and $275,000 ($83,000 and $232,000 in 2012) with respect to its options granted to COGECO's employees. As a result, a compensation expense of $200,000 and $549,000 ($168,000 and $483,000 in 2012) was recorded for the three and nine-month periods ended May 31, 2013.

The weighted average fair value of stock options granted by Cogeco Cable for the nine-month period ended May 31, 2013 was $7.77 ($11.30 in 2012) per option. The weighted average fair value of each option granted was estimated at the grant date for purposes of determining stock-based compensation expense using the Black-Scholes option pricing model based on the following assumptions:

	2013	2012
	%	%
Expected dividend yield	**2.60**	1.66
Expected volatility	**26.59**	26.85
Risk-free interest rate	**1.49**	1.74
Expected life (in years)	**6.2**	6.1

Under the Stock Option Plan of Cogeco Cable, the following options were granted and are outstanding at May 31, 2013:

	Options	**Weighted average exercise price**
		$
Outstanding at August 31, 2012	**609,686**	**34.80**
Granted	**207,142**	**39.19**
Exercised[(1)]	**(32,447)**	**22.09**
Cancelled	**(20,420)**	**42.18**
Balance at May 31, 2013	**763,961**	**36.33**
Exercisable at May 31, 2013	**436,344**	**33.19**

(1) The weighted average share price for options exercised during the period was $42.03.

The Corporation and its subsidiary, Cogeco Cable Inc., also offer senior executive and designated employee Incentive Share Unit Plans ("ISU Plans"), which are described in the Corporation's annual consolidated financial statements. For the nine-month period ended May 31, 2013, 35,630 (35,542 in 2012) and 103,947 (60,479 in 2012) incentive share units ("ISUs") were granted by the Corporation and its subsidiary, respectively. The Corporation and its subsidiary establish the value of the compensation related to the ISUs granted based on the fair value of the subordinate voting shares at the date of grant and a compensation expense is recognized over the vesting period, which is three years less one day. Two trusts were created for the purpose of purchasing these shares on the stock market in order to protect against stock price fluctuation. The Corporation and its subsidiary instructed the trustee to purchase 35,630 (35,542 in 2012) and 101,047 (61,815 in 2012) subordinate voting shares on the stock market. These shares were purchased for cash consideration aggregating $1,201,000 ($1,740,000 in 2012) and $4,076,000 ($3,049,000 in 2012) and are held in trust for the participants until they are fully vested. The trusts, considered as a special purpose entities, are consolidated in the Corporation's financial statements with the value of the acquired shares presented as subordinate voting shares held in trust under the ISU Plans in reduction of share capital or non-controlling interest. A compensation expense of $978,000 and $2,804,000 ($848,000 and $2,100,000 in 2012) was recorded for the three and nine-month periods ended May 31, 2013, respectively, related to these plans. During the three and nine-month periods ended May 31, 2013, Cogeco Cable Inc. charged COGECO Inc. an amount of $117,000 and $336,000 ($105,000 and $285,000 in 2012), respectively, with respect to ISUs granted to COGECO's employees.

Under the ISU Plan of the Corporation, the following ISUs were granted and are outstanding at May 31, 2013:

Outstanding at August 31, 2012	**112,471**
Granted	**35,630**
Distributed	**(40,977)**
Outstanding at May 31, 2013	**107,124**

Under the ISU Plan of Cogeco Cable Inc., the following ISUs were granted and are outstanding at May 31, 2013:

Outstanding at August 31, 2012	**149,802**
Granted	**103,947**
Distributed	**(44,141)**
Cancelled	**(8,400)**
Outstanding at May 31, 2013	**201,208**

The Corporation and its subsidiary, Cogeco Cable Inc., offer Deferred Share Unit Plans ("DSU Plans") for members of the Board of directors which are described in the Corporation's annual consolidated financial statements. For the nine-month period ended May 31, 2013, the Corporation and its subsidiary issued respectively 8,139 and 5,573 deferred share units ("DSUs") (6,435 and 4,446 in 2012) to the participants in connection with the DSU Plans. A compensation expense of $275,000 and $556,000 ($108,000 and $256,000 in 2012) was recorded for the three and nine-month periods ended May 31, 2013, respectively, for the increase in liability related to this plan.

Under the DSU Plan of the Corporation, the following DSUs were issued and are outstanding at May 31, 2013:

Outstanding at August 31, 2012	**29,312**
Issued	**8,139**
Redeemed	**(7,174)**
Dividend equivalents	**455**
Outstanding at May 31, 2013	**30,732**

Under the DSU Plan of Cogeco Cable Inc., the following DSUs were issued and are outstanding at May 31, 2013:

Outstanding at August 31, 2012	**20,491**
Issued	**5,573**
Redeemed	**(2,868)**
Dividend equivalents	**424**
Outstanding at May 31, 2013	**23,620**

11. Statements of Cash Flows

a) Changes in non-cash operating activities

	Three months ended		Nine months ended	
	May 31, 2013	May 31, 2012	**May 31, 2013**	May 31, 2012

	(5,443)	(20,507)	**(80,194)**	(85,288)

b) Cash and cash equivalents

	May 31, 2013	August 31, 2012
	$	$
Cash	**39,643**	65,574
Cash equivalents[(1)]	**—**	149,949
	39,643	215,523

(1) At August 31, 2012, Banker's acceptances for a total of $149.9 million, bearing interest of 1.10% with maturity dates ranging from September 4, 2012 to September 17, 2012.

12. Employee Benefits

The Corporation and its subsidiaries offer their employees contributory defined benefit pension plans, defined contribution pension plans or a collective registered retirement savings plans, which are described in the Corporation's annual consolidated financial statements. The total expense related to these plans is as follows:

	Three months ended		Nine months ended	
	May 31, 2013	May 31, 2012	**May 31, 2013**	May 31, 2012
	$	$	**$**	$
Contributory defined benefit pension plans	**1,193**	974	**3,566**	4,013
Defined contribution pension plans and collective registered retirement savings plans	**1,709**	2,238	**5,335**	4,912
	2,902	3,212	**8,901**	8,925

13. Financial instruments

a) Financial risk management

Management's objectives are to protect COGECO Inc. and its subsidiaries against material economic exposures and variability of results, and against certain financial risks including credit, liquidity, interest rate and foreign exchange risk.

Credit risk

Credit risk represents the risk of financial loss for the Corporation if a customer or counterparty to a financial asset fails to meet its contractual obligations. The Corporation is exposed to credit risk arising from the derivative financial instruments, cash and cash equivalents and trade accounts receivable, the maximum exposure of which is represented by the carrying amounts reported on the statement of financial position.

Credit risk from derivative financial instruments arises from the possibility that counterparties to the cross-currency swaps may default on their obligations in instances where these agreements have positive fair values for the Corporation. The Corporation reduces this risk by completing transactions with financial institutions that carry a credit rating equal to or superior to its own credit rating. The Corporation assesses the creditworthiness of the counterparties in order to minimize the risk of counterparties default under the agreements. At May 31, 2013, management believes that the credit risk relating to its derivative financial instruments is minimal, since the lowest credit rating of the counterparties to the agreements is "BBB+" by Standard & Poor's rating services ("S&P") and "A (high)" by Dominion Bond Rating Services ("DBRS").

Cash and cash equivalents consist mainly of highly liquid money market short-term investments. The Corporation has deposited the cash and cash equivalents with reputable financial institutions, for which management believes the risk of loss to be remote. At May 31, 2013, management believes that the credit risk relating to its short-term investments is minimal, since the credit rating related to such investment is "A-1+" by S&P.

The Corporation is also exposed to credit risk in relation to its trade accounts receivable. To mitigate such risk, the Corporation continuously monitors the financial condition of its customers and reviews the credit history or worthiness of each new large customer. At May 31, 2013 and August 31, 2012, no customer balance represented a significant portion of the Corporation's consolidated trade accounts receivable. The Corporation establishes an allowance for doubtful accounts based on specific credit risk of its customers by examining such factors as the number of overdue days of the customer's balance outstanding as well as the customer's collection history. The Corporation believes that its allowance for doubtful accounts is sufficient to cover the related credit risk. The Corporation has credit policies in place and has established various credit controls, including credit checks, deposits on accounts and advance billing, and has also established procedures to suspend the availability of services when customers have fully utilized approved credit limits or have violated existing payment terms. Since the Corporation has a large and diversified clientele dispersed throughout its market areas in Canada, in the US and in Europe, there is no significant concentration of credit risk.

The following table provides further details on the Corporation's trade accounts receivable, net of allowance for doubtful accounts:

	May 31, 2013	August 31, 2012
	$	$
Trade accounts receivable	**113,340**	95,170
Allowance for doubtful accounts	**(6,303)**	(4,156)
	107,037	91,014
Other accounts receivable	**20,857**	7,613
	127,894	98,627

Trade accounts receivable past due is defined as amount outstanding beyond normal credit terms and conditions for the respective customers. A large portion of the Corporation's customers are billed and pay before their services are rendered. The Corporation considers amount outstanding at the due date as trade accounts receivable past due. The following table provides further details on trade accounts receivable past due net of allowance for doubtful accounts at May 31, 2013 and August 31, 2012:

	May 31, 2013	August 31, 2012
	$	$
Less than 60 days overdue	**35,642**	23,906
60 to 90 days overdue	**2,084**	2,828
More than 90 days overdue	**1,307**	1,745
	39,033	28,479

Liquidity risk

Liquidity risk is the risk that the Corporation will not be able to meet its financial obligations as they become due. The Corporation manages liquidity risk through the management of its capital structure and access to different capital markets. It also manages liquidity risk by continuously monitoring actual and projected cash flows to ensure sufficient liquidity to meet its obligations when due. At May 31, 2013, the available amount of the Corporation's Term Revolving Facility and Cogeco Cable Inc.'s revolving credit facilities was $23.9 million and $429.3 million, respectively. Management believes that the committed revolving credit facilities will, until their maturities in January, February and November 2017, provide sufficient liquidity to manage its long-term debt maturities and support working capital requirements. Two subsidiaries of Cogeco Cable Inc. also benefits from a Revolving Facility of US$100 million related to the acquisition of ABB, of which US$53.7million ($55.7 million) was used at May 31, 2013.

The following table summarizes the contractual maturities of the financial liabilities and related capital amounts:

		Contractual cash flows						
	Carrying amount $	2013 $	2014 $	2015 $	2016 $	2017 $	Thereafter $	Total $
Trade and other payables[1]	**204,879**	**204,879**	**—**	**—**	**—**	**—**	**—**	**204,879**
Long-term debt[2]	**3,092,389**	**1,089**	**313,686**	**26,127**	**229,962**	**241,559**	**2,316,792**	**3,129,215**
Balance due on business combinations	**2,875**	**2,000**	**875**	**—**	**—**	**—**	**—**	**2,875**
Other liabilities	**2,714**	**—**	**1,263**	**1,253**	**1,253**	**1,253**	**44**	**5,066**
Derivative financial instruments	**2,380**	**—**	**—**	**—**	**4,883**	**—**	**—**	**4,883**
Finance leases[3]	**2,534**	**420**	**1,347**	**808**	**29**	**10**	**—**	**2,614**
	3,307,771	**208,388**	**317,171**	**28,188**	**236,127**	**242,822**	**2,316,836**	**3,349,532**

(1) Excluding accrued interest.
(2) Principal excluding finance leases.
(3) Including interest.

The following table is a summary of interest payable on long-term debt (excluding interest on finance leases) that is due for each of the next five years and thereafter, based on the principal amount and interest rate prevailing on the outstanding debt at May 31, 2013 and their respective maturities:

	2013	2014	2015	2016	2017	Thereafter	Total
	$	$	$	$	$	$	$
Interest payments on long-term debt	**22,621**	**131,818**	**113,413**	**105,703**	**94,585**	**271,807**	**739,947**
Interest receipts on derivative financial instruments	**—**	**(13,789)**	**(13,789)**	**(6,895)**	**—**	**—**	**(34,473)**
Interest payments on derivative financial instruments	**—**	**14,614**	**14,614**	**7,307**	**—**	**—**	**36,535**
	22,621	**132,643**	**114,238**	**106,115**	**94,585**	**271,807**	**742,009**

Interest rate risk

The Corporation is exposed to interest rate risks for both fixed interest rate and floating interest rate instruments. Fluctuations in interest rates will have an effect on the valuation and collection or repayment of these instruments. At May 31, 2013, all of the Corporation's long-term debt was at fixed rate, except for the Corporation's term and revolving facilities. The sensitivity of the Corporation's annual financial expense to a variation of 1% in the interest rate applicable to term and revolving facilities is approximately $10.9 million based on the current debt at May 31, 2013.

Foreign exchange risk

The Corporation is exposed to foreign exchange risk related to its long-term debt denominated in US dollars and British Pounds. In order to mitigate this risk, the Corporation has established guidelines whereby currency swap agreements can be used to fix the exchange rates applicable to its US dollar denominated long-term debt. All such agreements are exclusively used for hedging purposes. Accordingly, on October 2, 2008, the Corporation's subsidiary, Cogeco Cable Inc., entered into cross-currency swap agreements to set the liability for interest and principal payments on its US$190 million Senior Secured Notes Series A issued on October 1, 2008. These agreements have the effect of converting the US interest coupon rate of 7.00% per annum to an average Canadian dollar interest rate of 7.24% per annum. The exchange rate applicable to the principal portion of the debt has been fixed at $1.0625. The Corporation elected to apply cash flow hedge accounting on these derivative financial instruments. The impact of a 10% change in the exchange rate of the US dollar and British Pounds into Canadian dollars would change financial expense by approximately $3.3 million based on the current debt at May 31, 2013.

The Corporation is also exposed to foreign exchange risk on cash and cash equivalents, bank indebtedness and trade and other payables denominated in US dollars, Euros or British Pounds. The Corporation's exposure to foreign currency risk is as follows:

	May 31, 2013			August 31, 2012	
	US	**Euro**	**British Pound**	US	Euro
	$	**$**	**$**	$	$
Financial assets (liabilities)					
Cash and cash equivalents	**4,922**	**1,260**	**147**	3,630	1,243
Trade and other payables and provisions	**(6,360)**	**(24)**	**—**	(21,569)	(7,068)
	(1,438)	**1,236**	**147**	(17,939)	(5,825)

Due to their short-term nature, the risk arising from fluctuations in foreign exchange rates is usually not significant. The impact of a 10% fluctuation in the foreign exchange rates (US dollar, Euro and British Pound) would would not change financial expense.

Furthermore, Cogeco Cable's net investment in foreign operations is exposed to market risk attributable to fluctuations in foreign currency exchange rates, primarily changes in the values of the Canadian dollar versus the US dollar and British Pound. This risk was mitigated since the major part of the purchase price for ABB and PEER 1 were borrowed directly in US dollars and British Pounds. These debts were designated as hedges of net investments in foreign operations. At May 31 2013, the net investment for ABB and for PEER 1 amounted to US$1.1 billion and £66.6 million while long-term debt was of US$841.7 million and £69.1 million.The exchange rate used to convert the US dollar currency and British Pound currency into Canadian dollars for the statement of financial position accounts at May 31, 2013 was $1.0368 per US dollar and $1.5752 per British Pound. The impact of a 10% change in the exchange rate of the US dollar and British Pound into Canadian dollars would change other comprehensive income by approximately $27.5 million.

b) Fair value of financial instruments

Fair value is the amount at which willing parties would accept to exchange a financial instrument based on the current market for instruments with the same risk, principal and remaining maturity. Fair values are estimated at a specific point in time, by discounting expected cash flows at rates for debts of the same remaining maturities and conditions. These estimates are subjective in nature and involve uncertainties and matters of significant judgement, and therefore, cannot be determined with precision. In addition, income taxes and other expenses that would be incurred on disposition of these financial instruments are not reflected in the fair values. As a result, the fair values are not necessarily the net amounts that would be realized if these instruments were settled. The Corporation has determined the fair value of its financial instruments as follows:

a) The carrying amount of cash and cash equivalents, trade and other receivables, bank indebtedness, trade and other payables and balance due on business combinations approximates fair value because of the short-term nature of these instruments.

b) Interest rates under the terms of the Corporation's term and revolving facilities are based on Bankers' acceptance, LIBOR, EURIBOR, bank prime rate loan or US or British Pounds base rate loan plus applicable margin. Therefore, the carrying value approximates fair value for the term and revolving facilities, since these facilities have conditions similar to those currently available to the Corporation.

c) The fair value of the Senior Secured Debentures Series 1, 2, 3, and 4, Senior Secured Notes Series A and B, Senior Unsecured Notes and Senior Unsecured Debenture are based upon current trading values for similar financial instruments.

d) The fair values of finance leases are not significantly different from their carrying amounts.

The carrying value of all the Corporation's financial instruments approximates fair value, except as otherwise noted in the following table:

	May 31, 2013		August 31, 2012	
	Carrying value	**Fair value**	Carrying value	Fair value
	$	**$**	$	$
Long-term debt	**3,094,923**	**3,215,827**	1,145,669	1,228,324

All financial instruments recognized at fair value on the consolidated statement of financial position must be measured based on the three fair value hierarchy levels, which are as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Corporation considers that its derivative financial instruments are classified as Level 2 under the fair value hierarchy. The fair value of derivative financial instruments are estimated using valuation models that reflect projected future cash flows over contractual terms of the derivative financial instruments and observable market data, such as interest and currency exchange rate curves.

c) Capital management

The Corporation's objectives in managing capital are to ensure sufficient liquidity to support the capital requirements of its various businesses, including growth opportunities. The Corporation manages its capital structure and makes adjustments in light of general economic conditions, the risk characteristics of the underlying assets and the Corporation's working capital requirements. Management of the capital structure involves the issuance of new debt, the repayment of existing debts using cash generated by operations and the level of distribution to shareholders.

The capital structure of the Corporation is composed of shareholders' equity, cash and cash equivalents, bank indebtedness, long-term debt, balance due on business combinations and assets or liabilities related to derivative financial instruments.

The provisions of the financing agreements provide for restrictions on the operations and activities of the Corporation. Generally, the most significant restrictions relate to permitted investments and dividends on multiple and subordinate voting shares, as well as the maintenance of certain financial ratios primarily linked to the operating income before depreciation and amortization, financial expense and total indebtedness. At May 31, 2013 and August 31, 2012 the Corporation was in compliance with all of its debt covenants and was not subject to any other externally imposed capital requirements.

The following table summarizes certain of the key ratios used to monitor and manage the Corporation's capital structure:

	May 31, 2013	August 31, 2012
Net senior indebtedness[1][2] / operating income before depreciation and amortization[3]	**2.9**	1.3
Net indebtedness[2][4] / operating income before depreciation and amortization[3]	**3.7**	1.6
Operating income before depreciation and amortization[3] / financial expense[3]	**7.7**	8.8

(1) Net senior indebtedness is defined as the total of bank indebtedness, principal on long-term debt and obligations under derivative financial instruments, less cash and cash equivalents and principal on Senior Unsecured Debenture and Senior Unsecured Notes.
(2) Excluding ABB's cash and cash equivalents and non-recourse First Lien Credit Facilities at May 31, 2013.
(3) Calculation based on operating income before depreciation and amortization and financial expense for the twelve-month period ended May 31, 2013 and August 31, 2012 excluding ABB and including PEER 1 results for the four-month period ended May 31, 2013.
(4) Net indebtedness is defined as the total of bank indebtedness, principal on long-term debt, balance due on business combinations and obligations under derivative financial instruments, less cash and cash equivalents.

14. Disposal of Subsidiary and Discontinued Operations

On February 29, 2012, the Corporation's subsidiary, Cogeco Cable Inc., completed the sale of its Portuguese subsidiary, Cabovisão – Televisão por Cabo, S.A. As a result of the sale and in accordance with *IFRS 5 – Non-Current Assets Held for Sale and Discontinued Operations*, the Corporation reclassified the prior year results and cash flows of these operations, up to the date of disposal, as discontinued operations.

The profit or loss of the discontinued operations for the nine-month period ended May 31, 2012 were as follows:

	$
Revenue	80,546
Operating expenses	70,247
Depreciation and amortization	2,814
Operating income	7,485
Financial income	155
Gain on disposal	48,215
Profit before income taxes	55,855
Income taxes	409
Profit for the period	55,446

The cash flows of the discontinued operations for the nine-month period ended May 31, 2012 were as follows:

	$
Net cash flows from operating activities	13,637
Net cash flows from investing activities	36,826
Effect of exchange rate changes on cash and cash equivalents denominated in a foreign currency	(866)
Net increase in cash and cash equivalents	49,597

15. Subsequent Events

On July 5, 2013, the Corporation's subsidiary, Cogeco Cable Inc., reduced its Term Revolving Facility from $750 million to $600 million and its Revolving Facility of its Secured Credit Facilities from $240 million to $190 million.

On June 27, 2013, the Corporation's subsidiary, Cogeco Cable Inc., completed, pursuant to a private placement, the issuance of US$215 million Senior Secured Notes bearing interest at 4.30% payable semi-annually and maturing on June 16, 2025. The net proceeds from this offering along with drawings under Cogeco Cable Inc.'s credit facilities will be used to repay, on July 29, 2013, all the outstanding amount of $300 million Senior Secured Debentures Series 1, due on June 9, 2014.
